31 Easy Patterns to Make & Love

How to use this pack

Every project in this pack comes as a finished photo and a simple pattern drawing that shows how the piece is built. The photo is your goal; the drawing is your map. A few marks tell you everything you need.

Pattern-drawing symbol key

●	solid dot = where you start
→	arrow = direction you work
◎◎	concentric rings = worked in the round (from the centre out)
V V V	row of “V” = single crochet stitches
T T T	taller “T” = half-double / double crochet
○○○○	oval links = chain stitches (starting row / joins)

Tip: keep this key beside you — once you know six stitches, every drawing makes sense.

The six stitches you need

Learn these and you can make every project in this pack

Chain (ch)

The foundation — a row of loops that starts almost everything.

Slip stitch (sl st)

The joining stitch — closes rounds and joins pieces without adding height.

Single crochet (sc)

Short and sturdy — the whole of amigurumi and most small makes.

Half double (hdc)

A little taller and soft — great for cloths and cozies.

Double crochet (dc)

Tall and airy — builds granny squares, flowers and lacy edges fast.

Increase & decrease

Two stitches in one (increase) or worked together (decrease) — how shapes are formed
