How to Make Your Vision Board

1. Get clear on what you want

Before cutting anything, picture the life you want a year from now — how you want to feel, what you want to have, do, and become.

2. Choose your categories

Pick the areas that matter most: career, money, health, love, travel, home, growth, self-care. Use the header labels in this kit.

3. Gather your words & images

Cut out the goal words and affirmations on the next pages, and add magazine clippings or printed photos that light you up.

4. Arrange it on a template

Use one of the two templates in this kit (or a corkboard). Group by category, or mix it freely — there is no wrong way.

5. Turn vision into a plan

This is the step most people skip. Use the Goals-to-Action planner to give your top dreams a first step and a deadline.

6. Put it where you'll see it

Hang it by your desk, mirror, or as your phone wallpaper. Look at it daily — seeing it keeps it alive.
